Company Profile

Kemaico USA Corporation is a producer, designer and exporter of high-quality drilling and excavating tools with hundreds of satisfied customers in more than 50 countries. Our factory is ISO 9001:2008 certified and we use only the highest-grade premium steel and the toughest tungsten carbide to help ensure precision drilling every time.

In addition to our excellent customer support, we have a strong team headed by renowned experts in the fields of steel engineering and mining. We rely on the experience of our team of experts in design and manufacturing as well as the feedback from our valued customers. Our tools are becoming the industry standard for mineral exploration, mining, tunneling and construction, with wide-ranging applications in a variety of terrains and conditions. Every tool is tested to help ensure that it exceeds industry regulations and standards for toughness, durability and safety.

No matter what kinds of drilling wear parts, just tell us what you need, our special tailored service is waiting for you upon your demand.

Paver Series
